DESCRIPTION

Environment
This modern and featured design villa is located near the authentic finca of San Carlos. The residence is located in the valley of Morena with panoramic views of the countryside.

The villa
Nationals and ultramodern merged into this special building. The villa was designed by renowned architect Jaime Romano, while the features of a storied rural home were preserved. These original stables can be redefined to create more space. The lower living room has a four meter high ceiling,

which creates an extraordinary sense of spaciousness and generous windows enhance it. The living room showpiece is the spacious designer fireplace that separates this house from the dining room and kitchen. The impressive kitchen is made of high quality wood through a split level. Nestled on a generous kitchen island, the kitchen room is just like a professional kitchen. The stylish sliding doors around the villa ensure that the interior is seamlessly blended into the exterior.

Bedroom & Outdoor Space
The spacious villa offers five luxurious bedrooms and four bathrooms. They are all finished, and through the high windows, the oak doors create a rural backdrop to create a rural atmosphere. Designer bathrooms are all equipped with double sinks and some have freestanding bathtubs. The vast land surrounding the villa offers a great sense of place, freedom and possibility. The residence has a huge swimming pool of 20 meters and the house has its own water supply.
