N. Bedroom:	5	N. Bathroom:	5
M ² Property:	1432	M ² Inside:	

This property is not for sale until the energy certificate has not been submitted.

DESCRIPTION

This project consists of 5 bedrooms all in suite, located in the first level with direct access to the garden.

The second level consists of a large spacious kitchen and living room which is also very bright with 2 chilling areas, one is next to the 12m pool that ends exactly in the salon, giving the sensation to be next to the water. The other chillout area has got an 8m crystal face on the exterior from the property.

The villa has been designed to create a large open space between the interior living room and the big exterior terrace where the garden goes all around the property. The buyer will get the possibility to change the interior spaces, in case he don't like the one from the project he's free to change it with his architect !
