DESCRIPTION

High quality property in the Cala Vadella area with views of the sea and the sunset. The architecture is traditional Mediterranean style with a Moorish oriental touch. The Mediterranean tropical garden is planted with many palms and needs little maintenance.

The house has a spacious living room with access to terraces overlooking the sea, a large kitchen with a breakfast area under a dome-shaped roof with a dome. At first, the house had 3 bedrooms, but the current owners transformed a bedroom into a dining room. It would be easy enough without many expenses to return to the original distribution. The master bedroom is on the first floor with a spectacular oriental style bathroom, a dressing room and a private terrace.

There are two annexes on the plot, one is the garage with the laundry room and the technical heating room. In the pool area are the pool house, an empty space, a sauna and a shower. The price of 2 million include a plot of about 930 m2 to build a second house.
